We, the undersigned students of the State of Mississippi, do not support House Bill 1523, originally known as the Religious Liberty Accommodations Act. This bill does not align with the Mississippi we call home. We urge the State of Mississippi and its elected officials to reject HB 1523 and support students who wish to stay in Mississippi by helping to create a sustainable and welcoming Mississippi. We want a Mississippi in which we can, as Governor Bryant said, grow where we’re planted and not one that enacts a bill like HB1523.
